

MOBILEmail email to mobile forwarding from Microsoft Outlook™

Never miss that important email again – simply forward your email to your mobile.

This MOBILEmail service enables you to forward your email from Microsoft Outlook™ to your mobile. Choose to forward all incoming emails or emails from selected distribution lists or individuals.

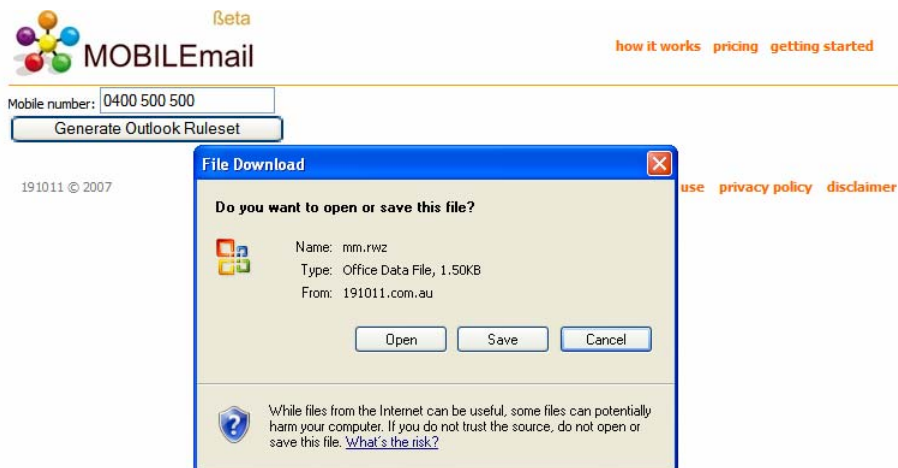

How do I do it?

Using our FREE Outlook Ruleset Download together with Microsoft Outlook™ Rules and Alerts features, redirection can be activated anytime you leave your desk and deactivated upon your return.

Each diverted message will automatically deduct 1 MOBILEmail credit from your MOBILEmail account.

Step 1. Click on the link below to DOWNLOAD THE RULESET

<http://191011.com.au/cgi-bin/xy/mm.rwz>.

- a. Enter your MOBILEmail registered mobile phone number and click on **Generate Outlook Ruleset**.
- b. From the File Download dialogue box, select **Save** and save to your Desktop or specified directory

Step 2. Import Rule into Outlook

- a. Open Microsoft Outlook
- b. From the Tools menu select **Tools, Rules and Alerts, Options, Import Rules**
- c. Select the downloaded **mm.rwz** file, click **Open**
- d. Click **Apply, OK**

Step 3. Redirect SELECTED incoming emails

- a. Open Microsoft Outlook
- b. From the Tools menu select **Tools, Rules and Alerts**
- c. Select the downloaded **MOBILEmail** rule from the **E-mail Rules Tab**
- d. Click **Change Rule, Edit Rule Settings**
- e. From the **Rules Wizard** dialogue box, **Step 1**: select from people or distribution list
- f. **Step 2**: click from people or distribution list.
- g. From the **Rule Address** dialogue box. Select the individuals or distribution list you wish to have forwarded to your mobile. Click **From, OK, Finish, OK**.

To setup multiple MOBILEmail rules, select the MOBILEmail rule in **Rules and Alerts**, click **Copy...**, **OK**. Modify the **Copy of MOBILEmail** rule using the same steps as in Step 3 above.

Remember! Anytime you want to turn this rule on or off, from the Tools Menu, select **Rules and Alerts**. To activate the Rule, check the checkbox. To deactivate the rule uncheck the checkbox. Click **Apply**, then **OK**.
